

EN Prior to use, carefully read the instructions for use.

EXACLEAR

CLEAR VINYL POLYSILOXANE

For use only by a dental professional in the recommended indications.

INDICATIONS FOR USE

- Silicone matrix for the composite injection molding technique
- Silicone matrix for temporary crown and bridge work
- Silicones for the composite layering technique
- Bite registration
- Fixation material for X-ray pellets used in implant planning
- Silicone matrix for the transfer of brackets or flaps from the model to the mouth

CONTRAINDICATIONS

Avoid use of this product in patients with known allergies to silicone.

PRECAUTIONS

When extruding or mixing EXACLEAR, care should be taken to avoid mixing or contact with the following materials which may delay or prevent setting: catalyst for condensation silicone impression materials, polysulfide impression materials, eugenol materials, sulfur, latex, oil, acrylicates, glycerol and spray-type or oilment-type topical surface anesthesia (e.g. lidocaine).

DIRECTIONS FOR USE

1. Lift the release lever of CARTRIDGE DISPENSER II and pull the piston plunger all the way back into the dispenser. Lift the cartridge holder of the dispenser and load the cartridge, ensuring that the V-shaped notch on the flange of the cartridge is facing down. Push the cartridge holder up to hold the cartridge firmly in place.
2. Lift the release lever and push the piston plunger forward until it engages into the cartridge.
3. Remove the cartridge cap by rotating 1/4 turn counter-clockwise. Tilt the dispenser downward and peel it away from the cartridge. Gently squeeze the dispenser handle to extrude a small amount of material from the two openings at the end of the cartridge. Make sure that base and nozzle are clean and dry.
4. Align the V-shaped notch on the rim of the MIXING TIP II to the V-shaped notch between the cartridge barrels. Push firmly to attach the nozzle. Then rotate the colored collar of the mixing tip 1/4 turn clockwise to the end of the cartridge. The dispenser is now ready for use.

5. Dispensing of the material
 - Squeeze the handle several times to extrude the material.
 - Apply the mixed material in the mouth or on the model.
 - Wait for the material to set.
 - Remove the impression from the mouth or the model.
 - Rinse the impression under running tap water and disinfect with an appropriate disinfectant.
6. After use, do not return the MIXING TIP II as this will become the storage cap until next use. When replacing the MIXING TIP II, rotate the collar on the mixing tip 1/4 turn counter-clockwise to align the V-shaped notch on the cartridge. Tilt the mixing tip downward and peel it away from the cartridge.
7. Remove the old mixing tip prior to next use. Before attaching a new tip, ensure that a small amount of material to ensure that the dispenser and catalyst are flowing evenly from both openings. If the materials should fail to extrude, remove any hardened materials from the end of the cartridge.
8. To replace the cartridge, lift the release lever and retract the piston plunger fully. Remove the empty cartridge by lifting the cartridge holder and load a new one into the dispenser.

TECHNICAL DATA	
Working time at 23°C	45 sec.
Minimum time in mouth	2 min.
Minimum time on a model (at 23°C)	Approx. 7 min.
Hardness (Shore A)	60

COLOR	
Clear	
STORAGE	
Recommended for optimal performance, store at room temperature away from direct sunlight (15-25°C, 59.0-77.0°F).	
PACKAGE	
Two cartridges package: Cartridge 51 g (48 ml) x 2 MIXING TIP II (green) x 6	

CAUTION

1. In case of contact with oral tissue or skin, remove and flush with water.
2. In case of contact with eyes, flush immediately with water and seek medical attention.
3. Do not mix EXACLEAR with components of any other products.
4. Avoid getting material on clothing as it is difficult to remove.
5. Before attaching a new mixing tip, extrude a small amount of materials to ensure that base and catalyst are coming out evenly. Uneven extrusion may cause delayed setting.
6. Take care to avoid ingestion of the material.
7. Mixing tips are for single use only. To prevent cross contamination between patients, do not reuse the mixing tip. The mixing tip cannot be sterilized in an autoclave or chemically.
8. Personal protective equipment (PPE) such as gloves, face masks and safety eyewear should always be worn.
9. In rare cases, the product may cause sensitivity in some people. If any allergic reactions are experienced, discontinue the use of the product and refer to a physician immediately.

Some products referenced in the present IFLU may be classified as hazardous according to GHS. Always familiarize yourself with the safety data sheets available at:

BG Пред употребя, внимателно прочетете инструкциите за употреба.

EXACLEAR

ПРОЗРАЧЕН ВИНИЛ ПОЛИСИЛОКСАН

За употреба само от дентални професионалисти според препоръчаните индикации.

ИНДИКАЦИИ ЗА УПОТРЕБА

- Силиконов клонч за композизна техника с инжектиране
- Силиконов клонч за временни корони и мостове
- Силиконов клонч за композитна поспойна техника
- Определяне на захалка
- Силиконов материал за рентгенови маркири, използвани при имплантологично планиране
- Трансферна шина за брекети или влекач от моден клм устна кухина

КОНТРАИДИКАЦИИ
Избягвайте употребата на този продукт при пациенти с известна алергия към силиконови.

ПРЕДПАЗНИ МЕРКИ
Когато използвате или смесвате EXACLEAR, трябва да се избягва смесване или контакт със следните материали, които могат да забавят или спрат втвърдяването: катализатор за кондензационен силиконов отпечатъчен материал, полисulfидни отпечатъчни материали, еugenolови материали, сяра, латекс, масло, акрилни, глисерол и повърхностна локална анестезия тип спрей или мехлем (напр. лидокаин).

НАСОКИ ЗА УПОТРЕБА

1. Подгответе особено внимателно самият си CARTRIDGE DISPENSER II и извадете буталото докато надреза в листовете. Подгответе капака за картуша на листовете и заредете картуша, като внимателно V-образния улей на ръба на картуша да бъде обърнат надолу. Натиснете капака за картуша надолу така, че да закрепите здраво картуша на място то му.
2. Натиснете особено внимателно пост и натиснете буталото докато излезе малко количество материал.
3. Съветете капакача на картуша, като завъртите 1/4 оборот, обратно на часовниковата стрелка. Наклонете капакача надолу и свалете от картуша. Нека натиснете спусъка на листовете така че да изкариете малко количество материал от двата отвора в края на картуша. Уверете се, че базата и катализаторът излизат по равно.
4. Натиснете V-образния улей на MIXING TIP II в км V-образния улей на върха шинденте на картуша. Натиснете силно, за да закрепите смесителния накрайник. След това завърте шестия пръстен 1/4 оборот обратно на часовниковата стрелка, докато свързате с V-образния улей на картуша. Наклонете смесителния накрайник надолу и го свалете от картуша.

5. После използвайте смесителен накрайник преди свалянето употреба. Преди да закрепите нов накрайник, леко изкарийте малко количество материал, за да се уверите, че базата и катализаторът излизат по равно от двата отвора. Ако не излиза материал, отстранете отстранете материал от края на картуша.
6. За да смените картуша, подгответе особено внимателно пост и извадете буталото докато надреза в листовете. Свалете стария картуша, чрез подигане на капака за картуши и заредете нов в листовете.

CS Před použitím si pečlivě přečtěte návod k použití.

EXACLEAR

ČIRÝ VINYL POLYSILOXAN

Určen výhradně k profesionálnímu použití v dentální praxi a pro uvedené indikace.

INDIKACE K POUŽITÍ

- Sílkonová matrice pro techniku vstřikování kompozitu
- Sílkonová matrice pro provizorní korunky a mostyky
- Sílkonový klíč pro techniku vrstvení kompozitu
- Registrace skusu
- Fixační materiál za rentgenové přístroje při plánování implantace
- Sílkonová matrice pro PFGs breket nebo vláken z modulu u sta

KONTRAINDIKACE

Vyhýnejte se používání tohoto produktu u pacientů se známou alergií na silikon.

BEZPEČNOSTNÍ OPATŘENÍ

Při vytlačování nebo míchání EXACLEAR je třeba dávat pozor, aby nedošlo ke smíchání nebo kontaktu s následujícími materiály, které mohou zpomalit nebo zabránit tvrdnutí: katalyzátor pro kondenzaci silikonových otiskovacích hmot, polysulfidové otiskovací hmoty, eugenolové otiskovací hmoty, síra, latex, olej, akrylát, glycerol a lokální povrchová anestezika ve formě spreje nebo masti (např. lidokain).

NAVOD K POUŽITÍ

1. Podgответe osobeno внимателно самият си CARTRIDGE DISPENSER II и извадете буталото докато надреза в листовете. Подгответе капака за картуша на листовете и заредете картуша, като внимателно V-образния улей на ръба на картуша да бъде обърнат надолу.
