

neodisher® GN

Neutral, universally applicable rinse aid

Liquid concentrate

Main fields of application:

- Automated rinsing of dishes, glasses, cutlery, trays and working utensils as well as containers and trolleys in all food processing companies such as professional kitchens, bakeries and butcher's shops

Performance spectrum:

- With appropriate dosing and rinse temperature all kinds of items to be washed are evenly wetted and dry without leaving stains or streaks.
- Suitable for all materials, such as porcelain, stoneware, glass, stainless steel, aluminium and easy-to-wet synthetic materials (plastic)

Special properties:

- Universally applicable
- For brilliant results
- Excellent material compatibility

Application and dosage:

neodisher GN is dosed into the last rinse water via an automatic dosing device. The dosing amount depends on water quality, kind and material of the items to be washed and the rinsing temperature. The optimal dosing of neodisher GN should be adjusted when operating the dishwasher.

neodisher GN is especially suitable for soft water. With hard or salty water we recommend a special water treatment for optimum rinsing results.

Depending on water quality, items to be washed and rinsing temperature	0.2 – 0.5 ml/l
--	----------------

For rinsing difficult-to-wet synthetic materials we recommend our special rinse aid neodisher TS or neodisher TN.

Notes on application:

- For professional use only.
- Rinse out dosing system including suction hose with water before changing product.
- Do not mix with other products.
- The instructions given by the manufacturer of the dishwasher are to be observed.
- Storage and transport is only permitted in original packaging.

Technical data:

pH-range	6.5 – 6.0 (0.2 - 0.5ml/l, determined in deionised water, 20 °C)
Viscosity	< 10 mPa s (concentrate, 20 °C)
Density	1.0 g/cm ³ (determined in deionised water, 20 °C)

Ingredients:

Ingredients according to Regulation (EC) No 648/2004 on detergents:

< 5 % phosphonates, polycarboxylates

15 - 30 % non-ionic surfactants

also preservatives (methylchloroisothiazolinone/ methylisothiazolinone)

Storage information:

Always store at a temperature between 0 and 30 °C. Changes in the colour of the product may occur when storing in factory-sealed trade units. This has no impact on the properties of the product which are relevant for application.

Hazard and precautionary statements:

neodisher GN is not a hazardous product according to CLP Regulation (EC) No. 1272/2008.

If applied according to the instructions for use the product is safe according to the appropriate guidelines for food processing.

Dispose only when container is empty and closed. For disposal of product residues, refer to the Material Safety Data Sheet.

For further safety information see EC safety data sheets. These are available e.g. at www.drweigert.com under the category "Service".
